

Client: Eastend Homes

Project Description: Renewal of lateral mains, replacement of landlord lighting, estate lighting and new ukpn supplies to 19 blocks, including the installation of 15 intake cupboards at The Bede Estate E3.

Project Duration: 12 months

Project Value: £1,430,000

Background: Part of EastEnd Homes Estate Regeneration Programme.

Brief Description of Works: Installation of 3 compartment trunking, finished to RAL 9010 for installation of new lateral main, new landlord lighting and entryphone cables. Replacement of lamp post tops estate wide, Liaising with UKPN for installation of new service heads and EDF Energy for changeovers.

Challenge: Maintaining existing supplies whilst installing new systems. Carrying out major refurbishment in occupied buildings.

Technical Solution: Installed a totally separate system whilst maintaining ageing existing system. Liaised with residents at all times to minimise impact on them.

Added Value: Made contributions to the estates jubilee party and installed water and power FOC to the estates gardening scheme.
