

**Client:** Equans Regeneration Ltd

**Project Description:** Full electrical rewire to 5 separate student halls of residence blocks. Including 288 bedrooms, 40 kitchens and all circulation areas.

**Project Duration:** 10 months

**Project Value:** £880,000

**Background:** Full Regeneration of student halls blocks for Kingston University.

**Brief Description of Works:** Full electrical design to 5 separate blocks containing 60 bedrooms and 8 kitchens. Full rewiring including new containment through all corridors to feed to each bedroom and kitchen. Full EMG lighting and power installation. New mains distribution equipment through out.

**Challenge:** Managing materials and labour through covid-19 with a very tight programme.

**Technical Solution:** An onsite non-working site supervisor to manage programme and off site team managing material delivery. Regular covid-19 testing.

**Added Value:** Weekend and out of hours working to meet programme targets.
